GOVERNOR VETOES RAILROAD MERGER

HOUSE BILL NO. 178, PROVIDING LEGISLATION FOR EXPANSION OF THE COLORADO & SOUTHERN RAILWAY SYSTEM, GETS DEATH BLOW FROM GOVERNOR.

GIVES HIS NEWS AND VIEWS

DENVER, April 28.—Governor Jesse F. McDonald today vetoed the railroad merger or expansion bill passed at the late session of the legislature, the purpose of which, as represented, was to enable the Colorado & Southern railway company to extend its lines to the gulf of Mexico and in other directions.

There has been a bitter fight over this measure between two factions of the Republican party and it was an important factor in the gubernatorial contest between Peabody and Adams.

The following message explaining his attitude on the merger bill was issued by Governor McDonald today.

The Veto Message.

"I herewith transmit to the honorable secretary of state, House Bill No. 178, without my approval, for the following reasons:

"I have had this act under careful consideration for some time, endeavoring solely to decide what was for the best in behalf of the people of the whole state of Colorado.

"The title of this act is 'An act authorizing railroad companies to acquire and hold or guarantee the capital stock or obligations of other railroad or transportation companies and to purchase or lease and operate other lines of road, and providing modes of payment or of securing payment and to authorize railroad companies to sell or lease their property.'

"The title is appropriate and the bill, by its terms, 'undertakes to legislate' so that any railroad company may acquire and hold the capital stock of any other railroad or transportation company or may purchase or lease and operate other lines of road.

"Section two of the bill declares that the 'Act shall not be construed to permit any railroad company to purchase or lease any parallel and competing line situated within this state.' But does not in any way attempt to limit the construction of the act to prevent a parallel and competing or a parallel or competing line from acquiring and holding all the stock and obligations of a parallel and competing line or parallel or competing line or lines of railroads.

"Holding the stock and bonds of one railroad by another means that the holding company controls the road whose stock it holds, although the legal title remains in another company.

"If a railroad may hold the stock of another railroad or transportation company it may hold the stock of many or all railroads and transportation companies in the state. By one railroad holding the stock of other railroad and transportation companies without any limitations whatever, competition can be stifled and a monopoly created which will be a great menace to the people of the state.

"The railroad companies in the state have been built up and have grown to their present efficient and prosperous conditions in a sparsely populated district under the present laws. This bill seems to take away all limitation, so far as legislation is concerned, upon the power to create a monopoly or trust in the railroad and transportation companies of the state.

No Advantage to People.

"No advantage adequate to the risk of legalizing such a monopoly seems to be offered to the people by this bill, and under the circumstances I believe that to grant to railroad and transportation companies greater facilities to create a monopoly at this time, would be unwise and vicious legislation and would be taking a step in the wrong direction, as the demands of the people and business interests of the state do not seem to require such a departure.

"I therefore file said bill in the office of the secretary of state of Colorado without executive approval.

J. F. McDONALD,
Governor."

BROKE LAW BEFORE LEAVING WANSA

MAN AND BOY UNDER ARREST FOR BEATING MRS. ROTHGEB.

POLICE ARE UNABLE TO LEARN ALL THE FACTS IN ASSAULT CASE AT CRIPPLE CREEK.

Special to the Gazette.

CRIPPLE CREEK, April 28.—Charles Davis, a miner, and Ross Long, a boy 18 years old, are tonight confined in the county jail charged with the assaulting of Maria Rothgeb, proprietress, of a dyeing and cleaning establishment on South Third street.

The assault took place between 2 and 3 o'clock this morning. While the men were trying to make their escape, Policeman Allen, hearing the terrible screams of the woman appeared on the scene and placed the two men under arrest, together with Mary Brooks, a woman who had just been released from the city jail, who is now being held as a witness.

The two men claim that they were enticed into the rooms by the women and while drinking together a difference of opinion arose with the result that the woman was assaulted and beaten in a frightful manner.

After an examination was made by the city physician it was found that the woman's jaw was both dislocated and fractured and her injuries were such that in trying to make a statement today the woman was compelled to write the answers.

Mrs. Rothgeb, together with several neighbors, state that Joe Perri, husband of the woman Rothgeb, but of late separated, was the cause of the assault in order that she should not appear against him on May 4 when his trial comes up, he being charged with having made an assault on his life several weeks ago.

On searching the person of Davis in the jail this morning several papers were found that the officers believe will show that he is a relative of W. F. Davis, leader of the famous Bull hill gang and an intimate friend of Sherman Parker, another leader of the Western Federation of Miners, who have been missing from the district since June 6 last.

Long's mother resides somewhere in the district but where he says he does not know. His father was killed a short time on the Teutonic mine. The police say that they have pretty good proof that both men are recently escaped convicts, having been sent down from this county for stealing the greater part of a carload of ore at Gillett.

President Is Disappointed at Getting Only Brown Bears.

VERY SILVER TIP

WOULD BE A DESIRABLE CHANGE — FOUR BRUINS KILLED THURSDAY—ALL WELL IN THE CAMP.

GLENWOOD SPRINGS, Colo., April 28.—Details of the killing of four bears by the president's party yesterday have not yet come in. Late today Secretary Loeb received a telephone message from a ranch house two miles from the camp. The message was dictated by the president and read to Mr. Loeb by Elmer Chapman, the courier. It said:

"We got four bears yesterday. We are all well."

There was more to the message touching upon governmental affairs, but the rumor that the president had been ill proved to be unfounded.

It has not been determined when the party will move into its new location about 16 miles from Glenwood Springs. The sport on the West Divide creek has been so good that the president dislikes to leave. At the same time it is believed the change proposed will result in the killing of grizzlies which variety has been particularly scarce. Brown bears have been found in plenty but the grizzly and the silver tip appear to be too wily for the hunters.

BASEBALL

DES MOINES TAKES AN EXCITING GAME FROM THE DENVER CUBS IN THE NINTH INNING.

FEISTER'S CURVES WERE UNSOLVABLE AND LOCALS HAD PLENTY OF BOBBLES IN STOCK.

Special to the Gazette.

DENVER, April 28.—In an exciting game which did not end until Ganley gripped Lyon's drive with the bases full in the last of the ninth, the Underwriters defeated the Grizzlies by a score of 6 to 5. The game was bubbling over with features.

Des Moines scored two in the first inning on Ganley's single and Hogriever's base on balls. Both were advanced on Frisbee's put out and scored in a pick-up at the plate when Perrine dropped Hartzell's throw-in.

McHale scored for Denver by being hit, stealing second, advancing to third on Randall's out and scoring on Perrine's out from Fiske to Rossman.

Towne scored for Des Moines in the third on a base on balls, a steal and a hit by Steele.

Denver scored in the fifth on Hogriever's error, Fiske's fumble and McHale's hit.

Denver tied the score in the sixth on Hartzell's two bagger, Smith's hit and Morrison's error. The Grizzlies took the lead in the seventh on hits by Schaub, Randall and Perrine. One more came in the eighth on hits by Hays and Randall.

Des Moines won out in the ninth. Fiske walked, Wakefield sacrificed, Steele advanced Fiske on a field play, Ganley's hit scored Fiske, Hogriever was safe on Rossman's hit. With three men on bases in the last of the ninth Lyons drove the ball into Ganley's hands.

Attendance 1,200.

Omaha defeated Colorado Springs again yesterday afternoon in the second game of the season by a score of 8 to 1. It looked for a time as if the locals would get even for Thursday's trouncing but Welch weakened in the sixth and the result was never in doubt from then on. The story is told in brief by the inability of the Millionaires to connect with Feister's slants and numerous bobbles in fielding.

Colorado Springs scored an earned run in the first inning. After that not a man got past second with the sole exception of Pennell, who raped out a pretty three-bagger in the third inning. Pennell, the first man up in the Springs' half of the first inning, got a pass but was thrown out at second immediately afterward on Blake's easy grounder to Shipke. McKean's long fly to center fell in a well hit Delehanty followed with a single, scoring Blake who had stolen second. Knabe fanned and retired the side.

Omaha started the fireworks in the sixth. Thiel walked, Carter got first on an error by the Colorado Springs pitcher, Welch sacrificed and Dolan drove both runners in on a two-bagger to right field, scoring the third run himself a minute later on Thomas's single. Martin flew out to center and Shipke fouled out, retiring the side.

Omaha scored five unearned runs in the eighth. Dolan walked, Thomas sacrificed him to second, Martin singled, Shipke followed with another scoring Dolan and advancing Martin to third. The C. Springs thirdbaseman then stole second and took third on a passed ball on which Martin crossed the plate. Gonding then followed with the third consecutive hit, scoring Shipke. Feister laid one right down at the plate but Mitze, trying to catch him at first, threw the ball ten feet over Mellor's head, allowing Carter to score, while Feister advanced to second. Welch made the second out on a fly to Miller and Carter caught out a fly, scoring Feister. Wilson retired the side and ended the scoring by flying out to center field. The score:

ROSE SMITH EASILY BEATS NEW YORK MAN AT DEMOCRATIC CLUB SOME FAST PRELIMINARIES.

DENVER, April 28.—Rube Smith of Denver easily beat Kid McPartland of New York tonight in the fourth round of a scheduled ten-round contest before the Democratic club. McPartland was repeatedly knocked down in the second and third rounds, but responded gamely until he was put out in the early part of the fourth from a right swing to the jaw.

Game Shoheneise of Denver was knocked out in the second round of the first preliminary by Jack McDonald of Salt Lake, while Jack Haley of Denver and Young Ertenborn disposed of Sailor Hawkins and Young Zeiger in the following preliminaries in the second and third rounds respectively.

SPRINGS PLAYERS BACK FROM PUEBLO

The Colorado Springs baseball team has been reinforced. Leonard Swormstedt, Archie Stemmel and Eugene Curtis, the three players who went to Pueblo a week ago to take the mineral water baths for the sake of limbering up their joints, returned yesterday and will be seen in uniform at Boulevard park today.

Swormstedt and Stemmel are pitchers and Curtis is an outfielder.

Teddy Radcliffe, shortstop of last year's team, is expected in from Kentucky today. His mother has been ill which accounts for his not being in the harness now.

Omaha will close the first series this afternoon, changing places with the Des Moines Underwriters, who are now in Denver. The Des Moines team is one of the strongest in the league this season.

DEAD MAN IS PROVED TO BE JOE B. MOEN

The investigation into the identity of the man found dead on the prairie near Fountain Thursday has established the fact that he was Joe B. Moen, as his union card indicated, and has further developed the fact that he was known here. On February 1, he was in Colorado Springs and in conversation with his friend, John Berquist, a local tailor. He told Berquist that he had but $16.50 on which to get along until he could secure work, and as work was slow here, he said he would go to El Paso, Texas. It is now presumed that he started to walk via the C. & S. tracks and then turned off in the hope of finding shelter for the night, only to freeze to death on the bleak prairie on the night of February 2.

SIOUX CITY, Iowa, April 28.—Lewis F. Moen, whose dead body has been found near Fountain, Colorado, left Sioux City in February for Colorado Springs. Moen worked in a tailor shop here for a year. He was a single man, aged 34. He had the reputation of being a heavy drinker.

PICKIOU COAL MINE FIRE HAS BEEN EXTINGUISHED

GRAND JURY AT SAN FRANCISCO BRINGS OUT THE FACT THAT GEORGE FLOYD WAS UNDER BOND.

SAN FRANCISCO, April 28.—Former Tax Collector E. J. Smith, indicted on two charges of felony and embezzlement, is still a fugitive from justice, though the police are confident that he will soon be placed under arrest.

It was discovered today that in addition to embezzling large amounts of money, the former tax collector obtained several thousand dollars by means of forged demands on the city treasurer purporting to come from clerks and other employes for services rendered, or for supplies. Some of the names signed are said to have been fictitious. The total of Smith's shortages, so far as tabulated, is nearly $90,000, one item of $4,000 and a number of minor delinquencies having been found today.

The grand jury has brought to light the fact that not one employe of the tax collector's office is under bonds for this year, and that some of them have not been held under bonds since the first year of Smith's term. The city charter provides that every person in the office shall be under bonds to the tax collector, while he, himself, is to be insured to the city to the extent of $100,000. The first year of Smith's term all the employes gave bonds to him, the minor officials $5,000 each and the heads of departments $25,000. Since that time this safeguard has been allowed to lapse.

AMENDED ARTICLES.

Special to the Gazette.

CRIPPLE CREEK, April 28.—A certificate of amended articles of incorporation was filed with the county clerk by the Rocky Mountain Gold Mining company. By a resolution of the directors the capital stock has been increased from $1,000,000 to $2,000,000.

HIGH SCHOOL PLAYS BALL.

Special to the Gazette.

CRIPPLE CREEK, April 28.—The first High school game of the year will be played tomorrow afternoon at Union Park between Victor and Cripple Creek High schools and a good game is promised.

STARTS THE CLEAN-UP.

Special to the Gazette.

VICTOR, April 28.—Nineteen men and eight women were arrested between 2 and 3 o'clock this morning by the police in a raid on the houses of ill repute in this city. The new police force of the town is determined to clean up the town and is doing good work.

MURDERER TO HANG.

SALEM, Ore., April 28.—The supreme court today rendered an opinion affirming the decision of the circuit court of Warren county in the conviction of Noah Williams for the murder of Alma Nesbitt and her mother, Louisa J. Nesbitt, on a ranch near Hood river, March 8, 1903. The Nesbitts were homeseekers from Nebraska. Robbery was alleged to have been the motive for Williams' crime. Williams was sentenced to be hanged.

DISSEMINATORS OF SCENTING UP A TAR SOLDERS ARE ARRESTED.

W. J. JAECKEL OF THE ANHEUSER-BUSCH COMPANY OF ST. LOUIS LOOKS AFTER THEIR KEGS.

Special to the Gazette.

CRIPPLE CREEK, April 28.—During the past 24 hours, W. J. Jaeckel, the cooperage accountant of the Anheuser-Busch company of St. Louis, has been a visitor in the district checking up and locating empty beer kegs which is a remarkable vocation.

The Anheuser-Busch company has something over 2,000,000 kegs, representing an investment of over $5,000,000 and Mr. Jaeckel travels from one end of the country to the other to see that the loss of these kegs is reduced as much as possible, also to give the company a report of how their different agents strewn from coast to coast take care of their property.

Mr. Jaeckel has evolved a system whereby he takes kodak pictures of the empty kegs that are in charge of the agent. These pictures are forwarded to St. Louis where they are inspected by the officers who in turn know just at a glance what agents take the best care of the company's property.

TELEPHONE FRANCHISE BEFORE CITY COUNCIL.

Special to the Gazette.

CRIPPLE CREEK, April 28.—At the next meeting of the city council in all probability a franchise will be asked for the right to install a new telephone service in this city and it is understood that immediate action will be taken by the city council. The company asking for the franchise is the El Paso Telephone company and they will agree to make a rate of $1.50 per month for residence phones and not to install any nickel in the slot machines, furthermore the company will never sell to the Colorado Telephone company as they will sign an agreement to have their franchise revoked if such a proposition was made.

CERTIFICATE OF PURCHASE.

Special to the Gazette.

CRIPPLE CREEK, April 28.—A commissioner's certificate of purchase in the case of H. W. Humphreys against the H. H. H. Gold Mining company was filed with the county clerk and recorder today. The property involved is located near this city and was sold on April 5, for $5,086. Mr. Humphreys will be entitled to a deed to the ground, January 25, 1906, unless the original owners redeem the property before.

ROCK ISLAND TRAFFIC IN OKLAHOMA DELAYED.

OKLAHOMA CITY, April 28.—All Rock Island through traffic was delayed [illegible] through Oklahoma City from El Reno and Chickasha on account of washouts. The yards here were filled with trains today. No bridges have gone out on the South Canadian within the last 48 hours, but serious apprehension exists over the report of rapidly melting snow in Colorado.

FIRST WORK ON WESTERN PACIFIC.

GRADING BEGINS AT SALT LAKE CITY AND FORCE WILL BE GREATLY INCREASED TODAY.

SALT LAKE CITY, April 28.—The first work on the Western Pacific line was commenced today when a gang of 60 men began to grade for a connecting track between the Rio Grande Western yards and the proposed main line of the Western Pacific. Tomorrow a much larger gang will be put to work and the construction of the connecting line will be pushed vigorously. Chief Engineer E. J. Yard of the Denver & Rio Grande is superintending the work. The connecting line leaves the Rio Grande track at Ninth South street and goes north for a mile.

General Superintendent A. E. Welby has issued orders for the resumption of work on the Salina cut-off and a gang of men will be set to work next week repairing the grade already built in Salina canon, preparatory to completion of the road through to Green River.

SANTA FE BLOCKADE HAS NOT YET BEEN LIFTED.

LAS VEGAS, N. M., April 28.—Flood conditions on the Santa Fe today are practically unchanged. Approximately 1,000 passengers bound east are detained here. Last night it was said by the officials that trains would be able to proceed east sometime today, but at 1 o'clock this afternoon the prospects for early communication are decidedly gloomy. No time at which the blockade will be lifted can be fixed, as it is impossible to do any real work on the washed-out bridge at Morley, until the water in the Las Animas river subsides.

BATTLING NELSON TO BOX HERRERA.

BUTTE, Mont., April 28.—The Butte Athletic club has matched Battling Nelson and Aurelio Herrera to box twenty rounds at 130 pounds in this city for Miners' Union day, June 13. The boxers are to get sixty per cent of the receipts, the winner to take 75 per cent and the loser 25.

WILL TEST THE RIGHT OF WIRE TRUST TO COLLECT.

TOPEKA, Kas., April 28.—S. L. Leonard of Finney county, is trying to evade paying the wire combine a bill he owes that company on the grounds that this trust has no right to do business in Kansas. This case was filed in the supreme court today. Leonard had purchased wire from the American Wire Steel company giving his notes for $[illegible]. These were unpaid and the company secured judgment in the Finney county court. Leonard then appealed, claiming that this trust had not complied with the laws of Kansas relating to foreign corporations.

TRANSPORT SHERIDAN.

SAN FRANCISCO, April 28.—The United States army transport Sheridan arrived here today from Manila via Honolulu and Portland, Ore.

SHAW'S SLOWNESS AGAIN IN PUEBLO

OFFICERS FIND WOMAN WANTED AS A WITNESS IN ELECTION CASES SECURED ON A RANCH.

PUEBLO, Colo., April 28.—Blanche Shaw, the woman who is badly wanted as a witness in nearly 50 cases resulting from the grand jury which investigated the election frauds in Pueblo county, was found late tonight by officers secreted on a ranch 15 miles from the city.

The woman was spirited away last Tuesday night to prevent her testifying in the case against former City Detective E. H. Wilson, who was to have been tried last Wednesday. She was brought to the city late tonight and is being held by the officers.

Today Former City Detective Charles Grant and his brother, G. W. Grant, were placed in arrest on a charge of being implicated in the woman's disappearance. Both are being held in the county jail.

EYES SCORCHED BY ACID EXPLOSION.

Special to the Gazette.

CRIPPLE CREEK, April 28.—J. D. McIntosh, a well-known assayer at Midway, today had a very narrow escape from losing his eyesight through an explosion of chemicals. The explosion caused a number of rocks to fly into his face and seven pieces were picked from the ball of his left eye, but strange to say the physicians are of the opinion that his eye will not be permanently hurt.

COAL PASSER KILLED AND THE ENGINE CREW SCALDED.

OGDEN, Utah, April 28.—Union Pacific engine No. 1669 pulling a westbound through freight train blew up near Antelope, seven miles west of Carter, between Granger and Kemmerer, Wyoming, killing a coal passer, name unknown, and badly scalding the engine crew and front brakeman, about 11 o'clock last night. The injured men are Engineer Hunter Terry, Fireman M. F. Hughes and Brakeman W. H. Fettis.

FORT COLLINS FIRE IS CAUSED BY EXPLOSION

FORT COLLINS, Colo., April 28.—The Welsh block, owned by Mayor Jacob Welsh, was practically destroyed by fire today which was caused by the explosion of a gasoline stove in one of the rooms upstairs. The total loss approximates $16,000. The building was occupied by stores and shops.

BASEBALL PASSES—Thomas F. Burns, as has been his [illegible] custom, has [illegible] to six [illegible] tickets of the Printers' game.

COURT CALLED UPON

Judge Kohlsaat Grants an Injunction Against Teamsters' Council of Chicago.

CHICAGO, April 28.—Judge C. C. Kohlsaat, of the United States district court, today granted an injunction to the Employers' association of Chicago, restraining all persons from interfering with the movements of the association's wagons upon the streets, or in any way obstructing business of members of the association. The injunction is temporary, and is returnable May 10. It is specifically directed against the Teamsters' Joint Council of Chicago.

Scenes of violence in connection with the strike began promptly today, the first victim being a colored teamster employed by the A. M. Forbes Cartage company, who was chased by a mob in Des Plaines street and kicked and beaten into insensibility.

Arrival of a squad of police put an end to the disturbance. The negro was taken to a hospital where he was found to be severely cut and bruised.

The greatest number of union pickets were stationed today about barns of the Employers' Teaming company in 18th street, near State. The non-union teamsters are housed in these stables. Special details of police were sent to the stables to protect the non-union men, as it was feared that the most serious disturbances would occur in the vicinity of these barns.

Employers today were aggressive in venturing with non-union teamsters. Under the escort of seventy policemen twenty-four wagons were sent out from Marshall Field & Co.'s stables, notwithstanding that the street in front of the company's barns was crowded with teams and strike sympathizers. Non-union teamsters on the twenty-four wagons were jeered and hooted at by the mob while a number of teamsters wearing union buttons attempted to form blockades. Prompt action by the police forced a passage for the non-union conveyances.

Closely guarded by a hundred private detectives, eight coal wagons owned by the Employers' Teaming company left the stable in Eighteenth street on a trip to the foot of South Water street.

Fifty negroes from the south who are to take the place of strikers arrived in a box car today. They were placed in coal wagons belonging to the Employers' Teaming company and taken to the barns of the J. V. Farwell company.

Conditional bottles and other missiles were thrown from windows at the new men, but the negroes received no injury.

Foreign Corporation.

The injunction was issued on the grounds that the Employers' Teaming company is a corporation organized in West Virginia and being a corporation of a foreign state, has the right of protection under the federal government. No attempt was made to secure the protection of the federal courts under the interstate commerce act. Besides the Teamsters' Joint council the injunction names all persons who were served with an injunctional writ of the state courts several days ago. As soon as the injunction had been filed in court 750 copies of the order were given to United States Marshal John C. Ames and he was asked to serve all persons named in the order as soon as possible. Six deputy marshals were called into Marshal Ames' office and given instructions to serve the papers at once.

Immediately following the granting of the injunction the Chicago Employers' association placarded all its wagons with notices reading as follows:

"The U. S. circuit court has enjoined interference of any kind with this property and its drivers."

Sixty drivers for Hillman's State street department store joined the strike ranks today.

The striking unions declared a boycott on the Great Northern building and also on the Heyworth building, Madison street and Wabash avenue. Union officials said today that they had learned today that since the strike was called at the Ward company 500 tons of coal had been stored in the subcellar of the Heyworth building and was being used as a supply for the Ward company.

SOLDIERS IN CITY

RUMORS IN CHICAGO THAT THE TROOPS WERE CALLED TO SUPPRESS DISTURBANCES.

CHICAGO, April 28.—Soldiers seen on the streets in the business districts here today gave rise to reports that troops from Fort Sheridan had already been ordered to Chicago to suppress rioting in connection with the widespread sympathetic strikes growing out of the troubles of the garment workers and teamsters. Rumor had it that the regulars were quartered in the new post-office, but this report was not confirmed.

At Fort Sheridan it was denied that any troops had been sent to Chicago as a result of the strike.

GAYNOR-GREENE CASE COMES UP

MONTREAL COURT DECIDES THEY MUST FINAL CASE DISMISSED A FINE OWING TO APPEAL.

MONTREAL, Que., April 28.—Meagra Gaynor and Green have been put upon their defense. Magistrate Lafontaine, the extradition commissioner, announced today that he considered a prima facie case of conspiracy had been made between Gaynor and Greene and Captain Carter and others for the purpose of defrauding the United States government. He therefore announced that he was prepared to hear their defense.

Mr. Tremblay, on behalf of the defense, asked for a delay as he had already made an application to the court of appeals in Quebec. Mr. Ives, on Monday, for an appeal of the decision of Justice Davidson, who refused a writ of prohibition in the case. The reason he gave for this delay was that if the court of appeals sustained his appeal the case would be taken from the jurisdiction of Extradition Commissioner Lafontaine.

After considerable argument it was decided to allow an adjournment until next Friday.

FIFTEEN SHIPS IN STRAITS

RUSSIAN SECOND SQUADRON IS REPORTED FROM PENANG BOUND FOR SINGAPORE.

ISLAND OF PENANG, Straits Settlements, April 28.—The British cruiser Catharine Ascar, which arrived here today from Calcutta, reports having passed two detachments of eight and seven warships respectively, last night, sixty miles south of Penang. They were heading for Singapore.

MAIL START FOR VLADIVOSTOK

KAMRANH BAY, via Saigon, Cochin China, April 28.—The Russian squadron, with its transports, left its last stopping place Wednesday evening for an unknown destination.

The warships were provisioned for six months and it is thought here that they were bound for Vladivostok by way of the Pacific.

Four German collliers arrived at Kamranh Bay too late to proceed with the squadron, but they subsequently sailed in the same direction in efforts to catch up with it.

Vice Admiral Nebogatoff's division was expected to arrive yesterday in Indo-Chinese waters, where it is believed the admiral will receive instructions regarding the place where he is to effect a junction with Admiral Rojestvensky, whose squadron, besides twenty-five warships, includes a repairing ship, and a water tank ship.

INSURGENTS WIN A SIEGE IN ARABIA

CAPTURE THE CAPITAL CITY OF YEMEN PROVINCE. REGULAR TROOPS MUTINOUS, FIGHTING BADLY.

HODEID, Yemen Province, Arabia, Wednesday, April 26.—Sanaa, the capital city of Yemen province capitulated to the insurgents during the night of April 20. The revolutionists are now proceeding to siege Manauha.

The latter has a garrison of five thousand men, but the troops are mutinous. Jews who left Sanaa before the surrender and who have arrived at Hodeida say the town was subjected to constant night attacks, the garrison was hard pressed and provisions were scarce.

The scene of the fight of March 30, southward of Sanaa, when the Syrian reserves went to the relief of Sanaa and were crushingly defeated, was strewn with dead soldiers and animals.

CONSTANTINOPLE, April 28.—Advices received here from Hodeida say the revolutionists have surrounded the town of Manakha an important strategical position between Hodeida and Sanaa.

Disturbances have broken out among the Turkish troops at Medina because the only food the men received for four days consisted of biscuits.

MISS FRANCES LINCOLN DIED IN NEW YORK

NEW YORK, April 28.—Miss Frances Amelia Lincoln, 75 years old, a relative of President Lincoln, has been found dead at her home in New Rochelle. She had been ill some time.

Miss Lincoln was frequently a guest at the White House during the Lincoln administration and was present at the funeral of the president.

HONGKONG DOCK YARD REPLACES BRITISH GUNS

HONGKONG, April 28.—The dock yard at Kowloon has replaced three 45-ton wire wound 12-inch barbette guns of the British battleships Albion and Glory. Experts consider this a notable achievement, showing that the Kowloon dock yard is an important factor in the efficiency of the British eastern squadron.

DIDN'T BUY A PISTOL

Mrs. Morgan Smith Makes Positive Denial in Testimony Today.

NEW YORK, Arll 28.—The crowd in the court room today proved a trifle too much for Nan Patterson. The resolute manner in which Mrs. Smith refused to answer questions put to her by the prosecuting attorney and her declaration that she would stand by her sister affected the prisoner deeply and she was near a breakdown when the luncheon adjournment was announced. Mrs. Smith appeared to be unstrung as a result of her experience as well, and the two women spent the recess in their cells in the Tombs weeping in each other's arms.

NEW YORK, April 28.—The story told by Mrs. J. Morgan Smith on the witness stand yesterday afternoon and the prospect of her cross-examination by counsel for the defense today served to intensify interest in the case of Nan Patterson, who is now on trial in the court of general sessions, charged with the murder of Cassar Young.

The appearance of Mrs. Smith as a witness for the prosecution came in the nature of a surprise to the defense, Mr. Levy has said. He professed to be very well satisfied with the move, however, and said the cross-examination of the witness would afford an opportunity to place before the jury evidence which could not be produced in any other way.

He also believes, he said, that the direct testimony of Mrs. Smith has only served to strengthen the case of the prisoner, as it supports in many important details the testimony given by Miss Patterson, herself, at the last trial, a portion of which was read to the jury yesterday.

In the course of his examination Mr. Rand asked Mrs. Smith if she had possessed all the information she had testified to in this trial, all the time since she left New York last June.

Mrs. Smith replied that she would like to answer the question, but feared it would tend to degrade and incriminate her as she is under indictment for conspiracy.

The prosecutor then promised that if she would answer he would move next Monday to quash the indictment against her, but she declined to do so until she had an opportunity to consult her counsel.

Declined to Answer.

After she had consulted with her counsel Mrs. Smith declined to answer the question. "I must stick to my sister," she told the prosecuting attorney as she resumed the stand.

"And you refuse to answer notwithstanding my promise in open court to have the indictment against you quashed?" asked Mr. Rand.

"I do."

"Again I ask, were you in New York on June 3?"

"I decline to answer because my position might tend to degrade and incriminate me."

Recorder Goff directed the witness to answer the question, saying that it called for an answer. She still declined to do so, saying, "I must stick to my sister."

"Will you answer if the indictment for conspiracy on which you are held is dismissed now?" brought in Mr. Rand.

"No," replied the witness.

Mrs. Smith testified yesterday that Miss Patterson had expected Caesar Young to get a divorce from his wife and marry her. She, herself, believed that Young intended eventually to marry her sister until last May, when Leslie Coggins told her that Young did not intend to carry out the agreement.

Miss Patterson became greatly excited when Coggins statement was repeated to her, Mrs. Smith said.

Young and Trimble.

Taking up the examination where it was interrupted by the adjournment last night, Mr. Rand asked:

"Did not Coggins tell you that the best thing Young thought Nan could do was to accept Matt Trimble's offer of marriage?"

"He did not say anything like that to me," replied Mrs. Smith.

"Did Miss Patterson say that the cause of her emotion was that Coggins had misrepresented Young's intentions toward her?"

"She did not say so in those words, but I knew it."

Mrs. Smith said Nan refused to believe the story told by Coggins. She was excited, the witness said, because she was disappointed at the postponement of her marriage to Young.

"She did not say anything about her future intentions?"

"No."

She did not tell you what she was going to do?"

"No."

"And yet you described her as frantic and desperate?"

"Yes."

"When you wrote the letter to Young

(Continued on Page 3.)

PRESIDENT IN GOOD HEALTH

REPORT THAT HE IS INDISPOSED IS WITHOUT FOUNDATION—IS HUNTING TODAY.

GLENWOOD SPRINGS, Colo., April 28.—A rumor reached here today that the president was slightly indisposed yesterday and did not participate in the hunt. In response to an inquiry by telephone to the Smith ranch, two miles from camp, it was said that the president was never in better health in his life.

The rumor said that Dr. Lambert shot four bears during the day. Souvenir hunters are haunting the shop of Frank Hayes, the local taxidermist, who is mounting the skins sent to by the president. He is giving away joints from the feet of the bears killed.

The train is growing heavier every day because of the prominence given him as the monitor of the trophies from the president's hunt.

CONGRESSMAN BROOKS FOR BELGIUM

Congressman-at-large Franklin E. Brooks has been appointed a delegate to represent the United States at the meeting of the International Interparliamentary Arbitration League, in Brussels, Belgium, in September. Official notification of the honor conferred upon him was received by Congressman Brooks yesterday afternoon in a message from Washington.

Mr. Brooks has been chosen to attend the meeting of the Arbitration league as a representative of the legislative division of the American branch of the league. He was one of six persons who will be chosen as representatives of different organizations in this country. His appointment was made by vote of the senate and the house of representatives.

The International Interparliamentary Arbitration league is comprised of members of all the parliamentary parties in Europe, Canada and America. Its object is the promotion of international arbitration. A large number of the members of the league visited Colorado Springs and the Cripple Creek district, last year, after attending the World's Fair at St. Louis.

CENSUS SHOWS 7,000 CHILDREN

"The indications are that the school census now being taken will show a decided increase, several hundred beyond the present enumeration. It is my estimate that the enumerators will report 7,000 children of school age. The present rolls show 6,600," said Superintendent John Dietrich this morning.

The taking of the school census will be completed tomorrow night, in all probability. In case it should not be finished at that time it will be necessary for the enumerators to work on Sunday, for the law requires the census to be completed by the first of May. Since April 11, eight enumerators have been working in district No. 11. They are C. E. Knapp, F. P. Kriegel, Mrs. J. W. Smith, George Perry, Miss Katie MacMillan, Miss Pauline M. Prior, Miss Emma L. Wilson and Mrs. S. V. Baxter. The district was divided into subdistricts to facilitate the work.

Reports from the enumerators indicate that there will be a substantial increase in all parts of the district. It is not thought that a great percentage of the gain is due to new citizens moving into the district, but rather that the work of the enumerators is being performed with greater care. Heretofore it has been customary to employ one person to have charge of the work, this person to employ his own assistants. Under the new arrangement each enumerator is responsible to the school board for the work in the district assigned.

PADEREWSKI HERE AS TOUR PLAYING

NIAGARA FALLS, N. Y., April 28.—Paderewski, the pianist, has cancelled tonight's engagement in this city and left this afternoon for Boston.

In London, Ont., last night, he strained a cord in his neck while rendering a difficult composition and today his condition was such that Dr. Francis Francsak, of Buffalo, was called.

Upon the physician's advice, Paderewski has cancelled all the remaining engagements of his tour in this country. Dr. Francsak's diagnosis of Paderewski's ailment was to the effect that he is suffering from a severe attack of neuritis.

SENATOR DOLLIVER'S FATHER IS DEAD

WASHINGTON, April 28.—James P. Dolliver, of Morgantown, W. Va., father of Senator John P. Dolliver, of Iowa, died at the residence of his son today.

Mr. Dolliver was 90 years of age and was in Washington on a visit.

CARDINAL AJUTI DEAD.

ROME, April 28.—Cardinal Andrea Ajuti, archbishop of Verona, who for some time has been suffering seriously from liver trouble, died today. He was born in Italy in 1849 and was created a cardinal in 1903.

GASES KILL 16 MINERS

Original Explosion on the Eleanora Shaft Near Big Run, Pennsylvania.

DUBOIS, Pa., April 28.—Sixteen men were killed and one will die as the result of an explosion at the Eleanora shaft near Big Run.

The shaft is located one and a half miles from Big Run on the Buffalo, Rochester and Pittsburg railway, 12 miles south of here.

It is in an isolated part of the country and the explosion, which occurred last night, was not known in this city until today. The mine is owned and operated by the Rochester and Pittsburg Coal & Iron company, and is a comparatively new shaft, having been opened two years ago.

The mine was thought to be free from dangerous gases. The night shift was small or there would have been more fatalities. Every man who was in the mine at the time of the explosion except one is reported killed. Three bodies have thus far been recovered.

WILL GO EAST

MAYOR HALL WILL PROBABLY LEAVE MONDAY, BUT DECLINES TO DISCUSS APPOINTMENTS.

Mayor Henry C. Hall will, in all probability, return to the east on Monday next, but he will not be gone any great length of time. It is not his intention to resume the trial in the Perry will case in Michigan at this time. He will go through to New York and bring Mrs. Hall to Colorado Springs, being away but a few days. The mayor is not yet ready to indicate when the remaining city positions under his appointment are to be filled or whether or not any action will be taken in the matter prior to his departure.

MEADE GOES TO DENVER ON IMPORTANT MISSION

H. C. Meade, chairman of the beauty show committee for the Elks' fiesta to be held early in May, went to Denver this morning on an important mission. He says that he will confer with a special representative of the sultan of Turkey with regard to bringing several of the Turkish beauties to the fiesta. He says an effort will be made to secure six of the most beautiful wives of the sultan for the beauty show, and it is possible that the sultan himself will grace the entertainment with his presence.

GLENWOOD WOMEN HURT IN ACCIDENT

Special to the Gazette.

GLENWOOD SPRINGS, April 28.—By the overturning of a wagonette drawn by four horses, on a steep hill, just below Cattle creek, eleven miles south of here seventeen society women were injured, but none it is thought will result fatally.

The injured:

Mrs. E. L. Gamble, back sprained and internal injuries.

Mrs. W. M. Patterson, arm broken, scalp torn.

Mrs. John Richardson, rib fractured, back sprained.

Mrs. George Dewey, head hurt, scalp torn.

Mrs. J. F. Flinkard, bruised about body, scalp torn, suffering from shock.

Mrs. Nellie Gates, cut about head, face and body.

Miss Pearl Robbins, face cut, bruises.

Miss Rebecca Cohen, cut about face, suffering from nervous shock.

Mrs. Grant Taylor, body bruised.

Mrs. R. T. Malladay, nose broken, face cut.

Miss Viola Hill, bruised about body, face cut.

Mrs. Sherwood Parker, shoulder dislocated, bruised.

Mrs. Elizabeth Hanson, face cut.

Mrs. F. W. Corn, scalp cut, teeth knocked out.

Miss Drach, body badly bruised, cut about face and head.

BIG INCREASE OF SMELTER BONDS

NEW YORK, April 28.—Kuhn, Loeb and company have purchased $25,500,000 American Smelters Securities company five per cent cumulative preferred stock, series "B," guaranteed by the American Smelting and Refining company, being part of a total authorized issue of $30,000,000. The Securities company was previously known as the American Smelters Exploration company.

The American Smelting and Refining company owns a controlling interest in the common stock of the Securities company which is vested with voting power.

In addition to the issue named there is also an issue of $12,000,000 six per cent cumulative preferred stock.

POWER CALLED TO WASHINGTON

HE MUST EXPLAIN CHARGES UPON HIS TRADUCTION LETTER AGAINST SECRETARY LOOMIS.

WASHINGTON, April 28.—Secretary Taft is considering the advisability of ordering Minister Bowen, at Caracas, to report forthwith in Washington to explain the charges against Assistant Secretary Loomis, which he has conveyed to Secretary Taft in a personal letter. If President Roosevelt assents this order will be issued immediately.

The charges are that he got a $100,000 retainer from the Asphalt company while acting of minister to Venezuela; that he purchased a claim for $4,000 against the Venezuela government and used his official influence to get it collected; and third that he agreed to use his influence to get the Myers claim of $10,000,000 collected in consideration of getting $1,400,000.

Secretary Loomis vigorously denies each of the charges positively, and specifically.

JAMISON MADE AN ATONEMENT

PITTSBURG MAN LEFT SMALL FORTUNE TO FAMILY THAT HE DESERTED FORTY YEARS AGO.

NEW YORK, April 28.—Dispatches from Pittsburg announcing that by the will of David James (who died there Saturday) it has been learned his real name was Jamison, that he had deserted his wife and three sons in Brooklyn forty years ago, have proved a great surprise to the only living son who still resides in Brooklyn and gains a livelihood as a stationary engineer.

The will, which has just been opened, is in the nature of an atonement to the deserted family, as it gives them an estate worth $16,000. It shows that Jamison went to Pittsburg, changed his name and married another woman, who is now dead. She knew nothing of his double life, and the family in Brooklyn long ago gave up the husband and father as dead. One after another they dropped off until now only the son mentioned remains, and he will receive the entire estate.

It appears that Jamison was stricken 15 years ago with cancer and underwent numerous operations, losing his right arm by degrees and finally part of his collarbone, but the disease finally won.

The surviving son tells a sad story of how his mother struggled to educate and support her children after their father disappeared. She took in washing and succeeded in her task and when the sons grew up they supported her. She died last August. One of the boys lost his life accidentally three years ago while the eldest died ten years ago. No word was ever received of the father from the day of his disappearance until reporters carried to the tenement where the engineer lives word of his good fortune.

GENERAL WRIGHT DEAD.

CENTERVILLE, Ia., April 28.—General H. H. Wright, adjutant general under Governor F. M. Drake, died at his home here today. General Wright was a prominent politician.

BIG AUTOS KEPT OUT OF CHINATOWN

NEW YORK, April 28.—Big sight-seeing automobiles will be barred from the streets of Chinatown hereafter by order of Police Commissioner McAdoo, who recently expressed himself rather freely on the subject of slumming. No attempt will be made to prevent the sightseers from entering Chinatown afoot, but they will be compelled to leave their conveyance a short distance away on the Bowery.

In announcing the new rule, the commissioner holds the cars are so large that fire fighting apparatus cannot pass them in the narrow streets of the celestial quarter, and that in case of fire lives would be endangered by the presence of the automobiles.

Officials of the company conducting the tours declare Mr. McAdoo is misinformed as to the size of their automobiles and that they will test his order in the courts.

ARKANSAS RIVER RISES.

WICHITA, Kas., April 28.—The Arkansas river is rising at the rate of two inches an hour and at noon the gauge marked four feet four inches. No damage resulted.

CONFEDERATES

VETERANS OF THE CIVIL WAR WILL MARCH WITH MEMBERS OF GRANT POST ON MAY 30.

NEW YORK, April 28.—Four hundred Confederate veterans, members of the local camp, are to be the guests of U. S. Grant post, G. A. R., on Memorial day, and from 9 o'clock a. m. until late at night the veterans of the two armies will mingle.

Senator Blackburn of Kentucky is to deliver the oration of the day at Grant's tomb. It will be the first time that Confederate veterans have marched with Union veterans in this city.

CHIEFS LAID LOW

Well-Known Army Officer General Suffers From a Stroke of Apoplexy.

WASHINGTON, April 28.—Major General Fitzhugh Lee, U. S. A., retired, was stricken with apoplexy, the entire left side being affected, at 3 o'clock this morning.

General Lee was on a train en route from Boston to Washington. The train had just left Fall River when the stroke came. The train bearing the general arrived in Washington shortly after 10 o'clock.

Under the direction of Major Kean, U. S. A., of the surgeon general's office, the patient was removed to Providence hospital.

The news of the general's condition had preceded him to Washington and many of his army and personal friends were at the Pennsylvania station to meet him.

Intended among them were Major Michie, of the army general staff; Major Kean and Major Mason of the medical department; Dr. St. George Tucker, of George Washington university; Major Robert Hunter, of Virginia; Holmes Conrad, of Virginia, and E. H. Fowle. Dr. Tucker invited General Lee to occupy quarters at his residence here. The general was conscious and received Dr. Tucker in the car when the invitation was extended.

He replied smilingly:

"I am in charge of this man, Kean, and he says I must go to the hospital and I guess I will have to acquiesce."

Mrs. Lee, who is at Fort Oglethorpe, Ga., with her daughter, has been notified, as has also the son, George, who is in San Francisco preparing to sail for the Philippines. The other son, who is in the Philippines, has been cabled of his father's condition.

A physician was taken aboard the train at Jersey City.

Major Kean of the medical corps of the army announced this afternoon on leaving the bedside of General Lee that there was no apparent change in his condition, that the general is conscious but it will be impossible to tell what the outcome is to be for several hours. The entire left side is paralyzed.

BOSTON, April 28.—General Lee was in Boston yesterday to advocate the appropriation of Massachusetts at the Jamestown exposition in 1907. He appeared before the legislative committee on federal relations during the afternoon and made a strong address in favor of having Massachusetts erect a state building at Jamestown. He left here last evening apparently in his usual health.

SAYS RUN ON BANK HAS ENTIRELY CEASED

WASHINGTON, April 28.—National bank examiner Wadsworth telegraphs the comptroller of the currency from Milwaukee that the run on the First National bank has entirely stopped and no further trouble is anticipated. Mr. Wadsworth adds that the defalcation will not exceed published figures.

"POMATO" PLANT BY BURBANK TRIMPH

SAN FRANCISCO, April 28.—The Examiner says today that Luther Burbank of Santa Rosa has succeeded in producing another wonderful creation which will come under the head of potato experiments, and is known as a "potato fruit." Briefly summarized, the evolution is a matter of planting a tuber and gathering from the potato vine a luscious white fruit, one that is delightfully palatable and makes excellent preserve.

Mr. Burbank has named the potato fruit "Pomato." When compared with a tomato the pomato is smaller in size and its meat is white instead of red. It is highly flavored. In other words, its flavor is that of a fruit rather than a vegetable. Burbank speaks of the creation of the pomato as resulting from the grafting of the plant life in an opposite direction.

"Instead of cultivating tubers we now cultivate fruit, and the tubers are of secondary consideration," he says, "the fruit on the vine being the main object."

Mr. Burbank has now about 10,000 varieties of potatoes which he is experimenting. Most of them are hybrid seedlings of his own creation.

M. GUERARD

FRENCH ENGINEER WHO WAS RECENTLY ELECTED TO COMMISSION ON CANAL PROPOSITION.

WASHINGTON, April 28.—Ambassador Jusserand today informed Secretary Taft that the French government had decided on M. Guerard as the French member of the board of consulting engineers attached to the isthmian canal commission.

M. Guerard is one of the French government engineers, being inspector general des ponts et chaussies. He was formerly engineer-in-chief of Marseilles harbor.

CAPTAIN THOUGHT YACHT SUPPOSE WAS IN NO IMMEDIATE DANGER

NEW YORK April 28 Though he considered the yacht in no immediate danger had a perishable cargo which would make any delay on his own part dangerous and had no towing gear were the reasons given by Captain Horville of the fruit steamer S[illegible] for his failure to go to the assistance of President Roosevelt's yacht when she was lying disabled south of Bodies island The Corr arrived here today from Bay Cuba and for the first time since the incident captain Horville had an opportunity to give his version of the affair He said

"We were steaming along under full headway when we sighted flare lights on a vessel ahead This vessel was about eight miles on the lee bow she had been miles south of Block island The night was clear and the weather good As we approached I trailed the hail to stop the engine the wire broke and before I could communicate with the engine we were out of range of hearing

As soon as the wire broke I made ready to hail the distressed craft A boat came Will you tow us? I answered No I cannot drop your anchors you are in fourteen fathoms of water I'll report you at Cape Henry

I reported the ship's distress to the pilot and told him to send a tug We had a perishable cargo on board The yacht was in no danger and as I had no towing gear I did the best thing I could under the circumstances,

GREAT STRIKE IN PORTLAND ADDS MORE TO MINE'S VALUE

Special to the Gazette

CRIPPLE CREEK April 28 – Further addition to the great metalliferous wealth of the Portland Gold Mining company is announced in the discovery during the week of a body of magnificent proportions that gives promise of development into one of the most important contributors of the property The source of this information is one of absolute reliability

Discovery was on the seventh level at a depth of 1 300 feet therefore well back of the shaft From statements at hand it is gathered that the body was encountered in advancing a level The shoot is as wide as that avenue but how much wider will not be determined until laterals are driven into the walls The latter have a substantial content of yellow metal Careful sampling shows that values are well up to the Portland average

While the body the existence of which has been hitherto unknown is doubtless destined to yield another big fortune in gold its discovery appeals more to imagination from the remarkable depth at which it was made along with its liberal proportions

SERPENTS PROCEEDING FROM COLORADO BOSS

Special to the Gazette

CRIPPLE CREEK April 2 Some holders of stock in the Cripple Creek consolidated company are somewhat exercised over the inactiveness and slump of that security While no statement has been obtained from officers or lessees appearances suggest that the movement is due to manipulation

There never was a time when the heavy holders and the directors of the company would permit of publicity that would influence speculation At the same time they were free in describing conditions as they existed Never was anything withheld Latest reports from this source received several weeks ago gave no cause for anxiety It has been said of the Cripple Creek Consolidated that it would have touched 25 per apiece higher point, had there been a willingness or inclination among influential members to boost Such upward movement was based on merit.

During half an hour yesterday at its Cripple Boss shaft where John Sharp, lessee is operating all ore raised and there were four or five mine cars entered Boss bins Nearby is another ore house into which material from the Work side is dumped

Shipments have been proceeding at the rate of five to three carloads a week It is gathered that some such production is still being maintained although no verification of this or other reports were obtainable from employes The screenings have been yielding liberally and in a general way it is gathered that underground conditions are assuring Work is being energetically performed on other blocks of the Gold hill claims

ORE OF GOOD QUALITY OPENED IN THE CORIOLANUS

Special to the Gazette

CRIPPLE CREEK, April 28 – Much encouragement is felt by the lessee of the Coriolanus of the Giant company in disclosures made on the north end of that property during the last few months Besides assays of a lofty character the lessee is breaking ore of substantial content in yellow metal

Information to this effect was obtained from Manager Crum during a recent visit to the district He states that a lot of twenty tons shipped last week milled $142 in gold to the ton Assays of a streak in the vein show gold contents of $290 $340 and $800 per ton

Operations have been in progress on the middle and lower levels where bodies of much strength have been opened and explored Several years ago lessees profited handsomely from effort in this locality. A 500-foot shaft was subsequently sunk on the middle block farther south, and this is being used as an avenue for extraction of ore opened in many veins on the Triumph adjoining

Nearby the Ajax company and lessee are making an important production, while east is the Portland property with the greatest output in the field

MORE ORE LEAVES ELIZABETH COOPER

Special to the Gazette

CRIPPLE CREEK April 28 – Down in the depths of the Elizabeth Cooper mine from which so much ore of good quality has been removed by Smith & Allman lessees a shoot of no little value is undergoing development at the hands of Lessee Dennis, who pays financial tribute to the former lessees for the privilege of extraction To determine the quality of the shoot the sub-lessee has prepared a small carload that will be marketed today

COMPRESSOR FOR MONROSE CLAIM

Special to the Gazette

CRIPPLE CREEK April 28 Preparations are being made to haul a two-drill compressor to the Montrose property on the north slope of Ironclad hill where a leasing company is operating under the direction of Superintendent Van Fleet Exploration is in progress at fair depth and has revealed several veins of good appearance The lessees feel that they have much encouragement in their efforts in the Florence W P H and other strikes of the locality

VARRE[illegible] VIEWS

Affection Triumphs Over Obstacles in Wyoming Case.

SHERIDAN Wyo April 28 Sergeant James Murrell of the 10th cavalry stationed at Fort McKenzie and Miss Mary E Slaughter of Bowling Green Ky were married by telegraph yesterday There is a romantic one It seems that Miss Slaughter and Sergeant Murrell became acquainted with each other some years ago Miss Slaughter is a school teacher and Murrell resided at Glasgow, Ky where they first met

They have corresponded for two years and in 1901 when Murrell paid a visit to his old home they made arrangements to be married in Sheridan as soon as his term of enlistment expired in March of this year Not being able to get away then he wrote to her asking her to come to Sheridan to be married She refused to come until the ceremony was performed Still being unable to leave being a noncommissioned quartermaster and wishing to be united to his sweetheart Murrell hit upon the novel scheme of getting married by telegraph He finally went to Rev M Faux of the Baptist church who at 7 30 yesterday morning sent the following telegram to Miss Slaughter

If you Mary Slaughter take James Murrell to be your wedded husband to love cherish him and forsaking all others keep thee only unto him?

Murrell last night received the following answer

Bowling Green Ky April 27 1905
To Sergeant James Murrell, Sheridan, Wyo

I do (Signed) MARY

This was followed by an additional message from Rev W R Perine of Bowling Green which read

Do you James Murrell take Mary E Slaughter by the your lawful wedded wife to love and cherish her forsaking all others keeping thee only unto her

Mr Murrell at once dispatched his answer

I do

At 4 [illegible] yesterday afternoon Rev Faux sent the following telegram to Miss Slaughter

In pursuance of your solemn pledge this given I pronounce you husband and wife

(Signed) F A FAUX D D

Murrell and his bride have had a hard time in getting united A few months ago he sent Miss Slaughter the money to come to Sheridan which she deposited in a bank at her home until she could get ready The bank then failed Not discouraged, the young soldier on April 11, sent her the same telegram as that sent this morning but this came just at a time when death visited the family, and again everything was broken off This time the money was telegraphed and Mr Murrell expects his bride in Sheridan as soon as steam can bring her

DON'T BUY A PASS

(Continued from Page 2)

were you in a state of feeling brought on by what Nan had told you?"

Yes my sister is not responsible for that letter

Did that letter represent truthfully the state of your mind?

It did

Did it represent Nan's state of mind?"

This question was not answered

Mr Baird here offered the interceptor letter which Mrs Smith sent to Young which was ruled out yesterday and again it was rejected by Recorder Goff

Did Not Buy Gun

Mrs Smith said that when Miss Patterson procured a divorce from her husband all her expenses in the proceedings were paid by Young The witness detailed the movements of herself and husband and Miss Patterson on June 1, the day before Young's death They went to the races where they saw Young and returned to their apartments in New York about 7 p m

"Did you find your husband visit Starr's pawnshop that night?" asked Mr Rand

"We did not" the witness answered

The witness described the movements of the trio that evening and of the interceptor Nan gave to the telephone operator in case Young called for her before going to Healey's restaurant She also told about Nan's going out to meet Young late that night, and her return home about 3 o'clock the next morning

About [illegible] o'clock the morning she said Young called on the telephone and said he would meet Nan Nan was asleep and the witness did not want to wake her Young called again a little later however and repeated the request and within a few minutes called a third time

Mr Smith then told him that Nan had got up and was on the way to meet him

LENT IN ST PETERSBURG

Fasting Begins Today and Solemn Services Are Held.

ST PETERSBURG April 28 Three days hard fasting preceding Easter accompanied by solemn services commemorative of Christ's passion began today. Business of every character ceased and all the government departments were closed

The alarming reports circulated during the last few days apparently had little effect on the size of the crowds that thronged the churches where the tragedy of Calvary was vividly re-enacted

The day was also marked by the observance of the traditional custom of freeing birds, lighting bonfires and placing Paschal Buns but the bright sunshine did not fail to make a deep impression on the superstitious in the midst of the gloomy forebodings of evil being an augury of drought and crop failure which in Russia is synonymous with famine and disaster

The diplomatic corps including Ambassador Meyer attended the services at St Isaac's cathedral Every member of the orthodox church took communion today the emperor and the imperial family attending the service and taking the sacrament at the chapel of the Alexandra palace at Tsarskoe Selo

A Bachelor

THERE was Cuthbertine Cawdrey had a pretty easy time of it once He drew a fair salary that enabled him to go about where he pleased and enjoy himself generally He could afford to dress well and treat himself to any little luxury that he fancied He was a prime favorite socially very much be-loved But look at him now Not exactly getting old grey as a badger or bald and wears ready made clothes and only once in that never goes anywhere and has been seen shopping or wheeling a baby carriage on the street Your baby average holds the youngest of six and they do say the Cawdreys have a hard time to get along Yet Cawdrine had the check to ask Fruder why he didn't marry and settle down It made Fruder grin

It was Angeline Schoomaker the first gave him the glimmering of an idea that there might be another point of view Angeline was married about three years before She was a niece of Fruder's a mighty pretty little girl too and Fruder thought it was a pity which he got her cousin but so soon her sister chafing dish didn't bought no more about the matter until he received a letter from Angeline telling him that the baby had been named for him This time he sent a silver mug

One afternoon Angeline's husband called at Fruder's office and extorted a promise that he would come to dinner He went and was pleasantly surprised It was a nice little dinner The house Angeline lived in was a cosy little bit of a house Angeline had not grown the least bit dowdy and she and her husband seemed without gushing unduly to be particularly well satisfied with each other

Decidedly there are exceptions thought Fruder

When Frankie was brought in in his little pajamas rosy from the tub to say good night Fruder felt enthusiastic

By Jove, he said to Angeline's husband you people make me envious I shall have to try this sort of thing myself

Don't you think of it, said Angeline

Why said Fruder

It wouldn't suit you at all Would it James

Angeline's husband shook his head

As far as comfort is concerned you are probably as comfortable as you ever will be Angeline went on You might even be less comfortable if you married Mightn't be James

He might indeed agreed James seriously

If you had been a marrying man Uncle Frank you would have married long ago pursued Fruder's niece I am glad to see you are sensible enough to recognize the fact that you are not a marrying man

"Too old?" queried Fruder

"Not that, exactly You're not so old you know—but—well some men were meant to marry and some weren't They may be good and kind and generous—but—their part in life is to be godfathers They make good old bachelors but if they marry they make poor husbands It's the same with women There's Carrie Stevens now, James

I know Miss Stevens, said Fruder absently

Well, you know just how lovely and sweet she is But she will never marry She isn't a marrying girl and I'm glad of it for I want her always for little Frank's best aunt No, I think it is ridiculous to call bachelors selfish. Men don't marry out of a spirit of self sacrifice, do they James?"

I didn't, replied James emphatically

Of course not You married because you wanted to If you had not wanted to you would have been an old bachelor and that would have proved you were meant for an old bachelor and you wouldn't have been a bit to blame for it any more than Uncle Frank here

Where is she now? asked Fruder

Who?

Carrie Miss Stevens

Oh Why he has an apartment in the Ranelagh I thought she might look in here this evening She very often does Where did you meet her, Uncle Frank?

So you think I would better not marry eh? asked Fruder changing the subject

I think you will be more comfortable as you are

There's a big difference between comfort and happiness observed Angeline's husband

Fruder smoked his pipe pretty well into the morning after he got home The tobacco was good and the chair was comfortable He was comfortably situated altogether in his bachelor quarters But he reflected comfort is not happiness exactly Was he so constituted that he could not sacrifice comfort to happiness if necessary? Would he be a good bachelor make such an everlasting failure as a husband? Was he an abnormal creature? Somehow he felt no malice in his thought that he was not to blame It sounded like an apology for a deformity He could not enlist for the term of the war He was crippled pocket book but not in the least inclined for it

The first thing that Fruder did the next morning was to look in the directory Then he walked into the florist's next door with an air of determination and selected a magnificent bunch of long-stemmed roses On the back of his card he wrote I shall call this evening I hope I shall find you at home Then he turned to the florist To Miss Carrie Stevens apartment 628 Regalo court" he said Chicago News

WIPE OUT THE DENS OF VICE.

NOW the people have extended their campaign against the illegal clubs to the disreputable rooming houses and the female proprietor of one of them has been put into court charged with keeping a resort for immoral purposes. Result, a fine of $50 and costs which she paid.

It is not possible to legislate goodness and morality into anybody, but it is possible by strict enforcement of the laws to close up the opportunities for the practice of vice and crime. It has been suggested to us that closing the illegal clubs is useless because men will drink and men will gamble, and if they cannot drink and gamble in one place they will in another. This argument might also be applied to the rooming houses of the kind above referred to, but while it contains a grain of truth it is fallacious just the same. The more opportunities there are for vice to flourish the more it will flourish. This is shown by the almost total absence of drunkenness on the streets of Colorado Springs. One has only to contrast conditions here with those in any other city of equal size where saloons are permitted to realize the advantages of our own policy.

Of course the illegal clubs are the natural result of barring open saloons and gambling houses, and while such clubs are a monstrous evil in themselves they are yet infinitely better than the alternative evil. But there is no reason why even such clubs should exist, and apparently they are not to exist much longer. The same thing is true of the disreputable rooming houses. If Colorado Springs must have one or the other a thousand times better these resorts than houses of prostitution of the ordinary type, but again we repeat that there is no necessity whatever of having either. The law under which the Mott woman was convicted yesterday is amply sufficient to cover all such cases, and if the authorities continue to be as vigilant as they should be there will not be a rooming house of this kind in the town.

This campaign against vice is an unpleasant thing, but it has to be carried through. Nobody can deny that the necessity exists, the shocking revelations of depravity, mostly on the part of mere children, of which there have been so many, leave no doubt on this score. Colorado Springs needs a thorough cleaning up and it is getting one. The result may not be a spiritual regeneration, but it will at least be a removal of the opportunities to practice vice that have been so numerous in the past.

THE INFLUENCE OF THE COLLEGE.

THE present scientific conference of colleges and secondary schools at Colorado College, with its attractive programme of meetings, emphasizes again the great importance of the institution for the highest life of this community. If there are any beneficial influences emanating from the meetings of men and women vitally interested in things intellectual Colorado Springs ought to feel these influences.

The frequent gatherings of scholars at the College for consultation or experimentation, the excellent courses of University Extension lectures, and the frequent addresses at the College by prominent scholars from all parts of the country are all open to the public and many of them are directly instituted for the benefit of the Colorado Springs community. The opportunities the College offers along this line are free to all and the people appreciate the advantages offered. It is only fair that a tangible proof of this appreciation should be shown by a large attendance at the College functions.

THE COAL PRODUCTION.

A RECENT issue of The Manufacturers Record, a trade journal, contains an interesting article on the production of coal in the United States in the last forty-five years, which explains in part the tremendous industrial development of this country in the period mentioned. The business of mining coal has more than kept pace with the increase in population; in fact, while the population has doubled once in about thirty years the production of coal has almost doubled in each of the four decades beginning with the year 1865.

This in itself shows the rapidity and extent of our industrial development, for coal is intimately associated with the growth of railroads and manufacturing. One would be impossible without the other, and no matter what the demand for manufactured goods might have been it could not have been satisfied without an abundant supply of cheap fuel. Correspondingly the vast stores of coal in the earth would be comparatively useless unless the necessities of a growing population made possible the utilization in locomotive and factory furnaces.

The author of the article referred to, Mr. F. E. Saward, estimates that at the present time this country is producing 1,000,000 tons of coal a day. This is based on the known fact that the production in 1900 was 270,000,000 tons and in 1904 it was 345,000,000 tons. The per capita production is now about four tons a year. A comparatively small quantity of this coal is sold abroad, so it is apparent that nearly all of it is consumed by American fires.

The iron and steel industry is credited with 25,000,000 tons of coal annually. Figures showing the amount consumed by the railroads are not available, but it is enormous. The coal used for domestic purposes—heating and cooking—must total a pretty big figure, and the [illegible] for the factory furnaces [illegible] Gas, fuel in locomotives and factories has [illegible] considerable proportions by [illegible] to the increase of the use of [illegible] a sequence [illegible] but it needs [illegible] percentage of gas [illegible] blue-eating oil and other valuable distillants that it was [illegible] would be unprofitable. However the Texas and Pacific coast oil fields yield an inferior quality [illegible]

[illegible] which, repeated tests have shown, can be used to good advantage as fuel. There is more money in burning it this way than in sending it to refineries, and it is likely that the next few years will bring about a tremendous development in this industry which will seriously affect the coal business.

Colonel Watterson says that the immigrant may "kiss the prouder hand of America" provided that if he stays away a few months he will be [illegible] of his hide. The scolding two of the best friends in America give President Roosevelt and the Republican party.

New York City is thinking seriously of electing Theodore Roosevelt for mayor when his term as president expires. New York had a chance to make Mr. Roosevelt mayor and failed to take advantage of the opportunity. Once bitten, twice shy.

It is said that Germans live longer than Americans. They may live longer, but the average American gets two years of [illegible] and business out of every twelve months while [illegible] the smaller period.

Statistics from pawnbroker's shows that nine books out of every ten are [illegible]. The public school pupils have been reading some of their own popular novels.

WANTS HEMENWAY.

To the Editor of the Gazette:

[illegible] Mr. Hemenway [illegible] liberty. [illegible] while I was in High school. Let every negro support him to the last as he is our true and tried friend. Thanking you for your valued generosity and trusting Mr. Hemenway to be re-elected I am

Respectfully Yours,

April 28. GEORGE G. ROSS.

Press Opinions

MOTHEREDDY'S REMEDY.

A valuable contribution to the discussion of the divorce evil is furnished by Motheredd. Premising that the time-world flutters in my thought as an unreal shadow, she goes on to observe that truth canonized by life and love lays the axe at the root of all evil and lifts the curtain on the science of being, the science of wedlock of living and of loving—and ascends the scale of life harmoniously. Look high enough and you see the heart of humanity warming and winning. This is what the Motheredd'ites would all a beautiful thought—or rather a series of thoughts so intricately interwoven that one cannot be told from another. But as Motheredd herself says, "Look high enough." The rare truths she proclaims are not for all markets. It is enough to know that the science of wedlock will put an end to divorce. Leave the rest to the Concord Prophetess.—Providence Journal.

EVIDENCES OF PROSPERITY.

Chicago railroad men estimate that the railroads in the United States are intending to spend over $200,000,000 in equipment during the present year. Of this amount 10 lines have contracted to use about $100,000,000 and the balance is the estimated amount which other roads contemplate spending. The prosperity of the railroads and their willingness to make additions to their equipment are taken as a barometer to measure prosperity conditions in the country, for the expansion means increase in freight and passenger patronage as well as the ability to increase transportation facilities. Two years ago there was a similar evidence of prosperity, but that was not comparable to this and the expansion in business more than offset all the provisions that had been made for an anticipated increase.—Pittsburg.

JAPAN'S OBSERVANCE OF LAW

No nation heretofore engaged in war has made such extraordinary provision for the observance of international law as Japan has made in the war with Russia. Baron Kaneko of Tokio now on a mission to the United States created for him by the Japanese government, declared in an address before the students of Yale that two professors of international law accompany each squadron of the Japanese army in Manchuria to keep commanders informed as to the numerous international questions which arise in the conduct of the war. Baron Kaneko made the broad assertion that Japan has not been guilty of a single violation of the accepted rules of international law in the present war. The presence of skilled corps of international lawyers with the fighting armies is a new departure, and is another instance of the marvelous [illegible] which have been brought to the Japanese. [illegible] The Japanese generals take the advice with them and are advised in advance. This seems rational and practical.—Philadelphia Ledger.

"ASIA FOR ASIATICS" OSAGE'S NEXT SLOGAN

Magic Power So Long Wielded in Vain by the White Man Vanishes and Now He Is Regarded With Contempt

[illegible] PURPOSE [illegible] will [illegible] the [illegible] glad-[illegible] Bill [illegible] behind them [illegible] who saw nothing [illegible] Britain in the Anglo-Japanese [illegible] But the immediate result [illegible] they our own foreign trade [illegible] and the [illegible] of the far east [illegible] the former [illegible] which [illegible] our [illegible] interested themselves in [illegible] and passed away like [illegible] the wake of time to be forgotten. But [illegible] successful [illegible] would [illegible] and that she would [illegible] the doctrine "Asia for the [illegible]" [illegible] Asiatics—Indians, Chinese, Malays, [illegible] Filipinos, Siamese, Koreans, Mongolians [illegible] with Russia [illegible] buoyed up with [illegible] strength and [illegible] that behind her was the mighty power [illegible] for use if necessary. [illegible] the business of the seas. [illegible] proceed to establish record achievements without fear of a hostile Europe.

The power of Russia in the far east began to crumple up like a pile of matchwood under a sledge hammer. The shadow of the Muscovite, which overhung China, ever growing in size, began to dwindle and now it has receded almost out of sight.

But a much more portentous shadow has taken its place—one which is quickly taking substantial shape. Before its advance everything inimical to it will have to go, for it represents the revolt of the far east against the aggression, military and commercial, of the west, and between these two opposites there is an impassable barrier.

The Asiatic Soul of Japan.

The Japanese are the most profoundly Oriental of all the Asiatic peoples. True, they have copied the west in many ways, taking the best from each country and adapting it to their own uses with inimitable cleverness.

But the soul of Asia never changes, and we may be sure that Japan has no more changed its secret thoughts and aspirations because it has acquired the knowledge necessary to conduct a modern campaign than have exiles in a far land forgotten the ties of relationship to their own countries.

Spend a week, a month, a year, five years, in Japan and see at the end of that period whether you know anything at all of the inner workings of the Japanese mind.

The Japanese have that inborn gift of concealing thought whenever they want to, and, being cleverer than other Asiatics who also possess it, they can also hide it and gull the world into believing that they are to all intents and purposes a vigorous junior branch of the Western race. The average white man who has the misfortune to live in Japan would tell you quite a different tale if he had not been there long enough to become denationalized.

He has always been regarded as an intruder, and the laws of late years have placed him more and more in the position of a stranger allowed there on sufferance. Here again I am not speaking of those exalted persons who represent their countries diplomatically, but of the business people the merchants and tradesmen without whom there would be no British influence at the other end of the world.

The Ambition of Japan.

Eighteen months ago attention was drawn to the visits paid to Tokio of [illegible] her millions upon millions of pounds and thousands of lives. Even supposing she did do so, the chances of success in all with the Japanese merchants. They are one may say in their own country when in China and the foreigner will go to the wall in the contest. The only hope to be the middleman in business, and that would be a very disheartening position for a man who had been at the head of a big firm.

When Japan states that she will help to maintain the open door she does so in all sincerity of purpose. It will be kept open, but the receiving and distributing firms for foreign products will be Japanese. China will be no place for the white man.

The Strength of Japan

The Japanese can now build their own cruisers and smaller men-of-war, and before long they will be constructing battleships equal in size, speed and armament to anything afloat. Their navy at the present time is the only one, except that of Russia, which has had full experience of modern conditions of warfare. It is a great navy, and the men who man it are born sailors and fighters.

It is going to increase rapidly, and it is quite probable that several ships of the Baltic fleet will be added to it in the course of the next few months. If Admiral Togo ever meets Admiral Rojestvensky, with Japan as supreme power, a change in the balance of power in the Pacific will come. The stronger a nation becomes the more frequently its interests conflict with those of other powers, and Japan will be in a position to apply the lever in a very effective manner whenever she has a dispute with us.

I am, of course, presuming that it will not always be peace and gentleness between us and the Japanese, and that quarrels will occur at some time or another. The distance from Japan to Australia is not great, a fleet of fast vessels could accomplish the journey in a little over a fortnight. We know the promptitude with which Japan [illegible] and if she had serious intentions of going to war with us an army of [illegible] men could be landed in Australia almost before the first transports had left this country.

The defensive power of Australia could not stand against the military and naval resources of Japan, and the Britishers would be too busy protecting our interests in China and the Straits Settlements to render it undivided assistance. The danger from enemies nearer home would prevent us from weakening our naval strength in these waters to such an extent as would enable us to defeat the Japanese in their own sphere, and the eventual result would be that we should perforce comply with the demands of Japan.

Japan and Other Countries

The Philippine Islands are nearer still to Japan than Australia—in fact they are so situated that Japan could pour troops into the country with the greatest ease and overcome in a very short time whatever resistance was offered by the American garrison. In every town and village of the islands there are living disguised Japanese who take an important part in the dissemination of political ideas among the natives. The Filipino does not care a rap for the things offered to him by the white man; all he wants is his independence, and Japan now stands to him as the future liberator of his country from the foreign yoke.

Japan will be in a much stronger position in regard to other powers with interests in the far east. Germany will find that with Japan the role of honest broker has its drawbacks. She has already begun to recognize that, judging from the conciliatory speech made by Count von Buelow the other day.

From being the friend of Russia at the beginning of the war prognosticating the downfall of the Japanese nation and showing an almost inconceivable ignorance of the situation, German politicians and journalists have veered round to the point of view that Japan has always been in the right and that the result could not have been different. This is a sign that Germany is uneasy and feels her insecurity in the province of Shantung, which she wrested from China.

The French possessions in Indo-China [illegible] Japan whenever necessary, and France would think twice before risking a war over a country from which she has never reaped a farthing of profit.

Rubbish! I can hear some one say, but the remark is unjustifiable in the light of recent events. The war which [illegible] Russia off the Pacific however is going to place Japan in a position of indisputable eminence in the far east, with the result that the day will come when the west will be admitted [illegible]. The days of western aggression in the far east are over.—London Correspondence Philadelphia North American.

Fifty Years the Standard.

DR. PRICE'S CREAM BAKING POWDER

Made from the cream of tartar derived from grapes.

PRICE BAKING POWDER CO., CHICAGO.

THE LAXATIVE KNOWN QUALITY

There are two classes of remedies: those of known quality and which are permanently beneficial in effect, acting gently, in harmony with nature, when nature needs assistance; and another class, composed of preparations of unknown, uncertain and inferior character, acting temporarily, but injuriously, as a result of forcing the natural functions unnecessarily. One of the most exceptional of the remedies of known quality and excellence is the ever pleasant Syrup of Figs, manufactured by the California Fig Syrup Co., which represents the active principles of plants, known to act most beneficially, in a pleasant syrup, in which the wholesome Californian blue figs are used to contribute their rich, yet delicate, fruity flavor. It is the remedy of all remedies to sweeten and refresh and cleanse the system gently and naturally, and to assist one in overcoming constipation and the many ills resulting therefrom. Its active principles and quality are known to physicians generally, and the remedy has therefore met with their approval, as well as with the favor of many millions of well informed persons who know of their own personal knowledge and from actual experience that it is a most excellent laxative remedy. We do not claim that it will cure all manner of ills, but recommend it for what it really represents, a laxative remedy of known quality and excellence, containing nothing of an objectionable or injurious character.

There are two classes of purchasers: those who are informed as to the quality of what they buy and the reasons for the excellence of articles of exceptional merit, and who do not lack courage to go elsewhere when a dealer offers an imitation of any well known article; but, unfortunately, there are some people who do not know, and who allow themselves to be imposed upon. They cannot expect its beneficial effects if they do not get the genuine remedy.

To the credit of the druggists of the United States be it said that nearly all of them value their reputation for professional integrity and the good will of their customers too highly to offer imitations of the

CALIFORNIA FIG SYRUP CO.

manufactured by the California Fig Syrup Co., and in order to buy the genuine article and to get its beneficial effects, one has only to note, when purchasing, the full name of the Company, California Fig Syrup Co.—plainly printed on the front of every package. Price, 50c per bottle. One size only.

We fit stout or slim men just as satisfactorily as the average build of man

OSBROOK & PERKINS

WILL START CONSTRUCTION OF SECOND RESERVOIR

Work on the second Fountain Valley reservoir will be started at once under the personal supervision of W. S. Johnston president of the Fountain Valley Land and Irrigating company, and the reservoir will be completed as soon as possible.

The intention of Mr. Johnston to start work at once on this big reservoir scheme is a direct result of the recent investment of $125,000 in the holdings of the Denver Sugar, Land and Irrigation company by F. W. Genter of Colorado Springs. In return for the investment Mr. Genter became vice president and general manager of the Denver company, of which Mr. Johnston is president, thus relieving the latter of his duties with the Denver company and allowing him to take charge of the building of the second Fountain Valley reservoir.

When interviewed on the subject last night Edward Ellis, treasurer of the Fountain Valley Land and Irrigation company, said that he had not seen Mr. Johnston since the deal with Mr. Genter was completed but that he understood that Mr. Johnston would begin work at once on the Fountain Valley reservoir as soon as Mr. Genter assumed the managership of the Denver Sugar, Land and Irrigation company.

TWO MORE ARRESTS IN SECRETS CASE

Burt McCullough and Frank R. Wilson, Theater Ushers, in Jail for Same Statutory Crime Charged Against Tom Hudson in Connection With 15-Year-Old Girl.

Working upon evidence which he had secured from 16 year-old Elizabeth Bentley alias Viola Baker, Officer Reasoner of the county court yesterday had warrants issued for the arrest of Burt McCullough, aged 18, and Frank R. Wilson, aged 20, upon charges of violating the age of consent law. The complaint charges that the offenses were committed early this month while the girl was living in the so-called rooming house conducted by Mrs. Mattie J. Mott at 123 South Cascade avenue under the name of the Albany.

The evidence worked up by Officer Reasoner brought to light a shocking condition of affairs and yesterday morning resulted in the arrest of Mrs. Mattie J. Mott, landlady, by Chief Reynolds upon a charge of keeping a disorderly house. She was at once taken before Police Judge A. P. Toombs and after pleading not guilty was convicted upon the evidence introduced and fined $50 and costs, which she at once paid. In order to testify in this case Elizabeth Bentley was brought from the St. Francis hospital. Her testimony was convincing as to the character of the house conducted by Mrs. Mott, and was supported by the testimony of Tom Hudson the young man arrested Thursday evening.

Burt McCullough and Frank R. Wilson were arrested by Constable Harvey Gillingham upon warrants issued by Justice O. R. Dunnington and when taken before the justice their cases were set for hearing next Tuesday. Bond was fixed for McCullough in the sum of $500 and Wilson at $1,000. The former is an usher in the Empire theater and the latter is an usher at the Opera house.

In the meantime Tom Hudson was arraigned before Justice Ruby and released under $1,000 bond upon a charge of violating the age of consent law, and M. J. Willis and his wife who were arrested at Canon City, were placed under bond in the sum of $1,000 each. Willis furnished the bond and was released while his wife, formerly Emily Price, remains in the county jail in default of bond. Hudson will have a trial on Monday next while the hearing of Willis and his wife upon a charge of being accessories to a criminal operation will be held before Justice Ruby Tuesday.

The testimony given in the police court showed that Mrs. Willis was a roomer in the Albany house and lived there with Willis until they went to Canon City where they were married on April 18. The officers are in possession of evidence which will undoubtedly lead to still other arrests in connection with this case.

An investigation of Elizabeth Bentley, alias Viola Baker, has brought to light the fact that she was sent to the Home of the Good Shepherd in Denver three years ago, and was taken from the institution by her mother in 1902. Since that time she had been made to hustle for herself with the result that she finally landed in the care maintained by Laura Bell at Colorado City, coming to Colorado Springs in February. It was while she was living at the Albany house that she was taken so ill through the alleged efforts of Willis and Emily Price that her life was in danger, and then she was removed to the hospital and a regular physician was summoned. He found the girl to be in shocking condition and had proper medical attention been delayed 24 hours longer she undoubtedly would have died.

All of the facts in the case have been presented to the district attorney and in his efforts to clear the moral atmosphere of the city Officer Reasoner has the support of the district attorney, the sheriff and the chief of police. Additional arrests are expected any moment. Five arrests have so far been made.

NEW COMPLAINT FILED AGAINST FATHER BRINKER

MRS. KINSMAN SAYS SHE FELL OVER A DIRT PILE WHILE DODGING SPRINKLER. NEWS OF COURTS.

PIONEER PRIEST WILL SUCCEED FATHER CALLANAN AT THE CHURCH OF OUR LADY OF PERPETUAL HELP

An amended complaint in the $10,000 damage suit brought by Katherine Kinsman against the City of Colorado Springs was filed in the district court yesterday. The new complaint charges that on November 2, 1904 the plaintiff while trying to escape from the electric sprinkler fell over a pile of dirt in front of the new Pastorius building just north of Pike's Peak avenue on Tejon street and received injuries to her chest, stomach, right side, left knee and ankle and that she spent $250 in medical attendance and drugs and nursing.

An appeal from the justice court was filed in the county court yesterday entitled R. Longstaff vs. J. H. Goode.

Judge Kerr in the county court yesterday granted the motion of the plaintiff in the appeal case of Henningson vs. the Enterprise Coal company et al. and ordered the action dismissed.

In the probate division the following orders were entered:

Estate of John S. Luckraft, claims amounting to over $1,000 were allowed.

Estate of D. Putnam, letters of administration granted to Hannah Putnam.

Estate of Elnora Culwell, decree allowing the sale of real estate granted.

Father Brinker of Denver, a pioneer priest of the state, has been chosen as the successor to Rev. Father Callanan in the pastorate of the church of Our Lady of Perpetual Help at Manitou. Father Brinker will also have charge of the Catholic church at Colorado City in the absence of the Rev. Father White who will go on a trip to Scranton, Pa., next week.

SEVEN THOUSAND SCHOOL CHILDREN

Reports from the eight enumerators who are engaged in taking the school census, and whose work must be completed tomorrow night, indicate that there will be a substantial increase in all parts of the district. Superintendent John Dietrich yesterday estimated that the enumerators will report 7,000 children of school age as against the present enrollment of 6,600.

GREEN REFUSES TO GIVE IT BACK TO THE CLUB MANAGERS

REFUSES TO GIVE IT BACK TO THE CLUB MANAGERS — DOINGS IN POLICE COURT.

Chief of Police Reynolds yesterday declined to return the liquid evidence secured at the raiding of the four social clubs, and will hold the same until all of the cases are finally disposed of. The demand yesterday was made by an expressman who said he had been sent for the evidence secured at the Business Men's club.

Thomas Manley appeared before Judge Toombs in the police court yesterday and paid his fine of $5 and costs, amounting to $8.05, for violating the hotel runners ordinance.

John Dolan, Joe Nurn and Joe Kelley, who were arrested by the police in the vicinity of the Short Line for creating a disturbance, were introduced to Judge Toombs yesterday morning. Nurn had met the judge before, and when he was found guilty of being intoxicated, the court decided to make him an object lesson and handed the defendant $50 and costs. Dolan was assessed $10 and trimmings while the other member of the trio, Joe Kelley, was taxed $20 and costs. Victor Lasson also plead guilty to being intoxicated and being a repeater was fined $30 and costs.

GENERAL PARASITE NAMED FROM THE TOWN OF MANITOU

Manitou has the distinction of having her name given to a parasite which is a blessing to any community where it thrives. Prof. Manitou Vedalia is one of those curiosities.

The species is known as Manitou Vedalia, being so named by Prof. E. S. Tucker formerly of this city but now entomologist at the Kansas State university. Mr. Tucker discovered this beneficial parasite at Manitou when he was on his wedding trip ten years ago. The parasite lays its eggs on caterpillars and when the eggs hatch the parasite burrows into the body of the caterpillar where it lives, eventually killing the caterpillar.

J. T. Tucker is a son of J. T. Tucker, the well known restaurant man of this city, and Prof. Tucker spent several years here as a child with his father in the restaurant business. This, by but a few years ago was offered the position which he now holds.

He is very anxious to get specimens of new insects and believes that many new species may be found in this region. He is about to study the mosquitoes of the west and asks that all who are interested in entomology will assist him in this work by catching specimens and sending them to him at Kansas University. He suggests that the easiest way to catch the insects is to use a small shell glass vial in which is a small quantity of cyanide of potassium. A small layer of plaster of paris will hold the poison while the bottle neck is turned down over the insect. The poison has a stupefying effect making the capture of the insect easy. For sending the insects Prof. Tucker suggests the use of a tin pill box which may be sent through the mail.

The fact that Prof. Tucker has discovered in Manitou a parasite that destroys caterpillars which have been a pest in years gone by will greatly interest those who have had the caterpillar question under consideration.

CONGRESSMAN BROOKS GETS A HIGH HONOR

Congressman Franklin E. Brooks has received official notification that he has been appointed to represent the legislative division of the American branch of the International Interparliamentary Arbitration league at the league's meeting in Brussels, Belgium in September. The appointment was made by Congressman Barthold by authority conferred in him at a meeting which followed the last session of congress. The arbitration league is comprised of members of all the parliamentary parties in America, Europe and Canada.

YOUTH CHARGED WITH LARCENY

HARRY STEVENS, OF COLORADO CITY, IS ACCUSED OF STEALING CHICKENS IS IN JAIL

Constable Larrabee last night arrested Harry Stevens, a 16-year-old colored boy, on a charge of larceny. The warrant was sworn out in Justice Ruby's court and charges Stevens with the theft of chickens and other small articles. It is said he is a member of a gang of boys who have been stealing right and left in Colorado City and it is thought they are all there. Stevens is in the county jail awaiting a hearing.

FAREWELL RECITAL BY LOUIS PERSINGER

Local music lovers will have but one more opportunity of hearing the talented violinist Louis H. Persinger, prior to his departure for Europe where he goes to resume his studies. Mr. Persinger will study under the great Ysaye, the present lay master of the violin.

On May 8 Mr. Persinger and W. Gray Tisdale the pianist, will give a farewell recital at the residence of Mr. and Mrs. W. W. Price, 215 South Nevada avenue. It will be a benefit concert for the local violinist and no doubt will be largely attended by music lovers, as his concerts heretofore have been pronounced successes. He has played his way into the hearts of local musicians who will be sorry to lose him but will rejoice that he is to have the pleasure of studying under the great Ysaye.

THE MINES OF GRANITE COMPANY

Two New Ore Bodies, One at [illegible] and the Other at 1,2[illegible] Feet, Mark New Era in the District.

Special to the Gazette.

CRIPPLE CREEK, April 28.—Despite the statements of the government experts decrying the condition of the district, as to the barrenness of ore bearing dikes below the 1,000-foot level, has been knocked to the winds, this time by two important developments that have come inside of a fortnight, which will have an important bearing upon the future deep mining of the district.

The government experts stated that the ore below the 1,000-foot point would be narrower in size and less in value. One of the shoots which discredits this statement has been found at a depth of 1,000 feet and the other at a point 200 feet below that.

The latter ore body is the most important. This strike was made by the Granite Gold Mining company and lies at a point 300 feet south of any ore body heretofore known on this company's property.

The Granite company some time ago gave a contract to the Gold Coin company to drive into their ground from the ninth level of the Coin and it is through that level that the ore was found. At the present time there is four feet of ore showing, which averages $40 to the ton in gold and probably spreads the full length of the Granite company's property north and south. It is but reasonable to suppose that this same ore shoot will extend from the depth to the surface which will give the operators of ore shoot 1,200 feet in length from which to stope ore.

The level in which the ore was cut is being extended north to cut the ore shoot that the Granite company has been working on the levels run from their shaft. It is the intention of the Granite company to have the Gold Coin company extend about their 10th and 11th levels which will then cut the ore shoot at a depth of 1,300 and 1,400 feet below the collar of the shaft and will also prove the continuity of the ore shoot.

The other important find was made in the bottom level from the main Granite shaft where an entirely new ore shoot has been cut and from all appearances the top of the ore shoot seems to have been found in this level as above no ore was ever found. A winze is being sunk on the ore shoot which is measuring four feet in width, the grade running around one ounce to the ton. As the body of ore has been proved for a distance of 300 feet it will surely prove a very valuable proposition before it is all worked out.

C. C. Hamlin, the general manager of the Granite company, is highly elated over the new finds and says that they will prove the most important that have ever been made in that section and it only goes to prove that the ore of the Cripple Creek district extends with depth.

SPECIAL, EXTREME WEAKNESS SEIZES MARKET AT CLOSE

Effective Support Is Given During the Greater Portion of the Session But Heavy Liquidation Forces Prices Down to a Lower Level.

NEW YORK, April 28.—Effective support today checked the demoralized market which threatened the market and quieted the speculative excitement with the result of a subsidence of activity and a steady tone until sudden, extreme weakness again set in the last 15 minutes. During the progress of the recovery the average of prices was lifted above last night and some considerable gains were established, especially in the northwestern railroad group and the trunk lines.

Heavy Liquidation.

After yesterday's downward plunge, there was a fear that the further prices declined the more pressure there would be to sell stocks. This apprehension was sufficiently justified by the heavy liquidation this morning which was caused by the uneasiness throughout the country resulting from the heavy declines of yesterday, with margins materially impaired and the fear of still larger losses to be faced the urgent desire to sell is easily understood.

Foreign Markets Better.

Support was attempted at the opening and more cheerful tone of foreign markets today aided the effort. Prices of Americans in London were lifted considerably above last night and there was liberal buying in New York for foreign account after the trading began but these gains quickly disappeared under the flood of liquidation which came into the market from all quarters. It was only by the most vigorous measures of support that the market was saved from demoralization again during the first hour.

Enormous amounts of stocks passed through the market in that period in the course of the contest between opposing forces. The trading in the first hour in fact made up the bulk of the transactions for the whole day. The chief fear of speculative holders evidently was the instability of the market, rather than any actual developments affecting values and when the support had demonstrated its effectiveness, sufficient assurance was imparted to dissipate the urgent desire to sell.

Large Short Interest.

There was evidently a large short interest left open also. The failure of confirmation of some of the alarmist rumors which circulated yesterday impressed the sellers of stocks with the idea that there had not been good grounds for their action and increased the disposition to buy.

While the resignation of the head of the Missouri Pacific system from the Union Pacific board was discussed with seriousness, the effect on the market was lessened by the relative firmness of Missouri Pacific and the good support of Union Pacific. The forecast of the currency movement for the week gave promise of a considerable increase in the cash holdings of the banks to be shown in tomorrow's bank statement.

Continued Nervous.

The market continued to show a nervous and uncertain undertone in spite of the marked falling off in transactions and there seemed to be a disinclination on the part of the buyers to follow the drop in prices.

The closing was very weak.

Bonds were heavy. Total sales, par value, $2,790,000.

United States bonds were all unchanged on call.

THE GAZETTE

Robbins

[illegible] LEASE READY TO SHIP

Special to the Gazette.

CRIPPLE CREEK, April 28.—Machine drills have been installed by Austin and Crump who are operating under lease the Triumph property on Battle mountain and shipments are shortly to be started.

The operators who only recently went to work, have opened up a good-sized body of ore which is giving better than average values on the 300-foot level and they are now prepared to commence shipments at a terrific rate. The ore body is measuring from eight to 16 feet in width and from assays and samples taken, will run around two and one-half ounces to the ton. The ore shoot was encountered about 40 feet from the shaft and from the present showing it will undoubtedly make a small fortune for the lessees. During some pending litigation the money will be paid into the court.

GOLD KING SNOW STOPPING LARGELY

Special to the Gazette.

CRIPPLE CREEK, April 28.—As soon as surface water stops running into the Gold King property in Poverty gulch the sinking of the shaft will be resumed, as it is the intention of the company to attain a depth of 1,000 feet.

When surface water began bothering them so that operations were stopped, the company had a winze sunk below the ninth level for a distance of 45 feet and in the bottom of the winze the entire face was in a splendid grade of ore.

The Gold King company is at the present time working a force of about 30 men and shipping out at the rate of 500 tons of smelting grade ore every month.

STOCK GETS LEASE ON BLANCHE CLAIM

Special to the Gazette.

CRIPPLE CREEK, April 28.—A lease has been granted on the Blanche property on Bull hill to H. V. Hook and associates who intend pushing the work of development as fast as possible.

The new operators are going after the extension of the old ore shoot that made this property famous a few years ago and if it is once encountered the Blanche will once more be entered on the shipping list.

WORK HINDERED BY THE BAD ROADS

Special to the Gazette.

CRIPPLE CREEK, April 28.—Construction work on the Little Giant company's property in Poney Gulch has been suspended temporarily on account of the condition of the roads which will not permit the hauling of the remainder of the machinery to this distant point. However, it is expected by the operators that the mill will be ready and in operation by July 1.

HIGHER PRICES ON GOOD DEMAND

CONSIDERABLE CONFIDENCE IS DISPLAYED ON THE BUYING SIDE OF THE WHEAT MARKET.

CHICAGO, April 28.—Notwithstanding a continuation of excellent weather conditions, a degree of confidence on the buying side of the wheat market that had not been felt for some time past was in evidence. A part of the bullish sentiment was attributed to the seeming indifference of holders of May. A good cash demand at Minneapolis and higher prices at Liverpool were factors. Reports by a St. Louis trade paper furnished encouragement to the bears, the claim being made that the yield of winter wheat will be unusually large. The market closed firm with May at 88⅝ and July at 83⅝@⅞.

Corn was firm. July closed at 46½@⅝.

Oats were influenced by the firm tone of corn. July closed at 28⅝@29.

Heavy liquidation of May pork had a weakening effect on the provision market. July pork closed 17½ lower, lard 2½ up and ribs 5 down.

MEN PAST SIXTY IN DANGER.

More than half of mankind over sixty years of age suffer from kidney and bladder disorders, usually enlargement of prostate gland. This is both painful and dangerous and Foley's Kidney Cure should be taken at the first sign of danger, as it corrects irregularities and has cured many old men of this disease. Mr. Rodney Burnett, Rock Port, Mo., writes: "I suffered with enlarged prostate gland and kidney trouble for years and after taking two bottles of Foley's Kidney Cure I feel better than I have for twenty years, although I am now 91 years old." —The Hefley-Arcularius Drug Co.

COLORADO CITY

LARGE DRUM CORPS HAS BEEN ORGANIZED

F. B. Scarl has organized the Colorado City drum corps, consisting of ten drums. The members were out serenading their friends last night. Some of the neighbors who did not understand, thought the whole Japanese army had arrived.

COLORADO CITY NEWS NOTES.

Mrs Dona Edwards, of Elkton, Colo, is visiting her sister Mrs E. Empie

John R. Watt who was recently operated on for appendicitis, is reported as improving

Mrs. E. A. Morgan, mother of Mrs. C. W. Reynolds and a former resident here, will soon return.

Miss Jennie Talson has returned after an extended visit with friends and relatives in Nebraska

C. E. Pond has returned from a business trip to Cripple Creek and says he never saw prospects so fine in that camp

Bert Webb's cellar, 824 Monroe avenue, was flooded by the melting of a snow bank yesterday and ruined 45 quarts of jelly

Miss Edna Evans daughter of Mr and Mrs C. E. Evans is at home, after an extended visit to friends and relatives in the east.

Offices in the Opera house block are being painted and repapered in the highest style of the art until they compare with any in the west.

Mrs. C. D. Taylor entertained about 25 guests at high five last night. The usual good time was enjoyed by all present. A sumptuous luncheon was served.

F. M. Willoughby secretary of the El Paso company has returned from Denver where he has negotiated an important deal in the sale of stock for the company

A regular meeting of the Colorado City veterans of the Civil war will be held in the city hall Saturday night to make final arrangements and formulate a program for Decoration day

Work of changing the entrance to the First National bank has begun and will be completed by Saturday. This change will give the office rooms above an entrance on Colorado avenue.

Six range horses, which have been an annoyance and a damage to residents on First and Monroe avenue by tramping up their unfenced lawns and gardens, was caught yesterday after much difficulty by Pound Officer Bert Webb and taken to the city pound where their owners can get them by settling a bill for damages.

MANITOU NEWS

ST. ANDREWS GUILD ELECTS NEW OFFICERS

The annual election of St Andrews Guild of the Episcopal church was held yesterday afternoon at the home of Mrs Homer Snider. The following were elected for the coming year: President Mrs. Henry Ogilbee, first vice president, Mrs Homer Snider, second vice president, Mrs. William Brockhurst secretary and treasurer, Mrs F. D. Fox assistant, Mrs Smiley.

Delegates to convention in May at Denver, Mrs. B. W. Bonell and Mrs J. N. Porter. The guild will meet next Thursday afternoon with the new president.

CELEBRATED FIFTEENTH WEDDING ANNIVERSARY.

Mr and Mrs. Frank Hume celebrated the fifteenth anniversary of their marriage Tuesday evening by inviting friends to spend the evening at their home in Williams canon. Cards and dancing passed the hours pleasantly and many handsome gifts were received. Those present were Dr and Mrs. Beck, Messrs and Mesdames H. H. Van Duzen, R. Z. Robertson, John Fancher, L. E. LeRoy, William Pray, A. Green, W. Gillis, E. Reed, H. Ross, Ross E. Weatherald, Duncan Hillis, Scott, Miss Scott, and Messrs Oliver, Stewart, Walker

F. L. BALLARD DISCUSSES MINING IN THE SAN JUAN

F. L. Ballard returned yesterday morning from Silverton where he has been on a trip of inspection of mining properties in which he is interested in the San Juan country.

Mr Ballard is deeply interested with other Colorado Springs parties in the Hublet Mining company's group of claims comprising 30 acres near the town of Middleton above Silverton. His company has just constructed a stamp mill, the first to be constructed in that country in the winter time. It will be in full operation within 30 days.

SALE AT GRACE CHURCH PARISH HOUSE—On Saturday, April 29, under the auspices of the Chancel chapter, a sale of home-made candy and refreshments will be held at the parish house of Grace church, from 10 a. m. until 5 p. m. Afternoon tea will be served from 4 to 5 p. m.

1000 MILES OF SCENERY condensed in the trip of 45 miles over The Short Line to Cripple Creek. Superb equipment, best roadbed, palace observation cars and everything up-to-date. Nothing old or dilapidated. Trains leave daily at 10:35 a. m. and 6:30 p. m. from Santa Fe-Colorado & Southern station.

DEATH—Mrs. Alice J. Coleman, colored, wife of Henry F. Coleman, turnkey at the county jail, died early yesterday morning of pneumonia. Funeral arrangements have not yet been announced.

BASKETBALL—In the basketball game between the Pals and the Leans at the Y. M. C. A. gymnasium last night, the hungry bunch had a little too much altitude for the deshy boys and won by a score of 18 to 17. The volleyball game between the Telegraphs and the Business Men resulted in a victory for the latter by scores of 9-21, 21-13 and 21-17.

$2.00—DENVER & RETURN—$2.00

Special train leaves Colorado Springs via Colorado & Southern at 9 a. m., Sunday, April 30.

AMUSEMENTS

COMING SOON TO THE OPERA HOUSE.

Bobby Fountain's new attraction, The Marie Fountain Company (Eastern) will be an early attraction at the Opera house. The company is under the management of Mr. Geo. W. Dunton, a late and popular member of Mr. Fountain's western company.

The engagement at the Eastern opens Monday, Tuesday, Wednesday, May 1, 2, 3, for two nights with matinees Thursday and Saturday.

A large company including some of the best people in the stock dramatic profession composes the W. company for the coming of the beautiful romantic pastoral drama, "The Minister's Wife," will be presented.

CHAUNCEY OLCOTT.

The appearance of Chauncey Olcott, one of the most popular comedians on the stage and a singer of great repute, has, will be welcome news to our theater patrons. Mr. Olcott appears at the Opera house on next Tuesday evening in a superb production of one of his most successful plays, "A Romance of Athlone," which was written expressly for him by his manager, Augustus Thomas, and has the distinction of a run of nearly five months in New York. The action of the play transpires near Athlone, Ireland, in the year 1800. This picturesque period gave Mr. Thomas all the advantage he could desire for costume effect and he has carried out the fashions with historical accuracy. Mr. Olcott's songs of his own composition were written expressly for this play, and includes his famous popular song "My Wild Irish Rose." One of the striking incidents in the play is a scientific duel with foils, between Mr. Olcott and Mr. Malchien, which has called forth high compliments from professors in the art of fencing.

LIONEL BARRYMORE IN "THE OTHER GIRL."

The announcement of Charles Frohman's presentation of Lionel Barrymore, supported by an excellent comedy organization in Augustus Thomas' latest play, "The Other Girl," at the Opera house tomorrow evening, is a signal that amusement lovers will be on hand to enjoy the opportunity to laugh as did New York all last year at this clever and merry play. Undoubtedly theatergoers are well aware of the great success Lionel Barrymore made in "The Other Girl" last year in New York. His success as the athletic instructor, "Kid" Garvey, was so great that he stayed there the entire season, being transferred in turn from the Empire to the Criterion and then to the Lyceum theaters.

Augustus Thomas had long before won the public through his play "Arizona," "Alabama," "On the Quiet," "In Missouri" and "The Earl of Pawtucket," but in this, his latest work, he seems to have been impelled by a desire to excel all his previous efforts. In this play he introduces a distinctly novel idea of presenting in disguise the middle-weight champion fighter of England, Ireland and America into a dignified Fifth Avenue house presided over by a dignified clergyman. This gives opportunity for the most ludicrous and unique situations. The manner in which this unconventional person turns the existing state of society topsy-turvy, furnishes a theme that is said to be exhilarating in its freshness and uniqueness. In this character it might be said that Augustus Thomas has surpassed George Ade in deliciously mixing up the parts of human speech. The clubman with his ludicrous automobile experience, the dignified minister who is called upon to throw a mule over the dining-room table, the splendid spoiled heiress, the Irish cook, the clever reporter, the stock broker and others that people the play are all characters said to be drawn with the best skill that Augustus Thomas commands.

The remarkable hit that Lionel Barrymore has made in his performance of "Kid" Garvey has seldom been equalled in dramatic history. At a single bound it assured Mr. Barrymore a position equal to any artist that has long been emblazoned as a star. Adelaide Prince, Richard Bennett, Doris Keane, Frank Burbeck, Grace Henderson, Wallace Eddinger, Maggie Fielding, Ralph Delmore, Ida Greeley-Smith, Francis Byrne, Joseph Whiting and Ella Ray are among the names to be noted in the excellent organization that Charles Frohman sends here to present the piece.

THE RIO GRANDE has PARLOR OBSERVATION cars between Denver and Glenwood every day on trains 5 and 4. Seats can be reserved at City Ticket Office, 18 North Tejon St.

The Best Starch

This starch is absolutely pure and adapted for laundry and culinary purposes.

In the laundry it goes farther than any other, produces a brilliant white and does not stick to the iron.

For culinary purposes it is especially commended for puddings, fine pastry and for cakes of all kinds.
